DISCOVER SAFE REGIONS FOR YOUR INTERNSHIP OR TRAVEL IN FRANCE

Professor: Petra Isenberg
Supervisor: Natkamon Tovanich

Students:
Benjamin Gold
Dilbar Isakova

23 January, 2025

WHAT ARE OUR RESEARCH QUESTIONS?

**How does crime vary
across different regions in
France?**

**Which French regions are
safest for internships, travel, or
relocation?**

WHAT IS THE MOTIVATION?

- **Helping Students & Professionals**
- **Supporting Relocation & Travel**
- **Bridging Data & Public Awareness**
- **Comparative Analysis for Policy**
- **Enhancing Crime Perception**

WHO AND WHAT IS OUR TOOL FOR?

Students and Young Professionals

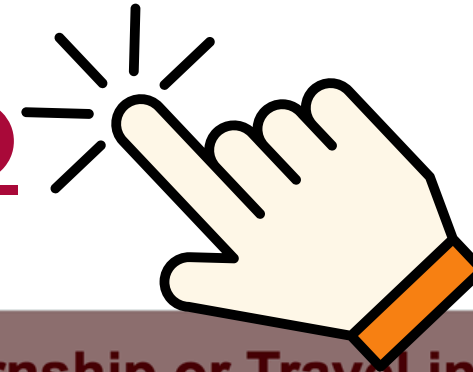

Families

WHAT IS THE DATA SOURCE USED IN OUR PROJECT?

The database of chronological series of the **Ministerial Statistical Service for Internal Security (SSMSI)** references several thousand monthly, quarterly, annual, national, departmental statistical indicators relating to the areas monitored by the service: crimes, offenses, contraventions, complaint rates, feeling of insecurity, etc. For each indicator, in addition to its values, the database provides information in particular on its source, its periodicity, its unit of account and its definition, supplemented by a link to an associated publication directly downloadable from the SSMSI [website](#).

The most recent download of the dataset we made was on November 2, 2024, at 3:11:10 PM. At the time, the data was last updated on October 16th, 2024.

Homicides and attempted homicides

What?

Our visualizations provide crime statistics by region in France, helping users make informed decisions about safety for travel, internships, or relocation.

Why?

Understanding crime rates ensures personal safety and helps users select regions that meet their safety needs.

Who?

Students, travelers, professionals and families seeking detailed insights into regional crime trends to plan their moves wisely.

How?

Interactive maps and charts visualize crime types and frequencies, allowing users to explore and compare regions easily.
